Management Report for the financial year 2021/22

1. Business activity

Universal-Investment-Luxembourg S.A. („UI-Lux“) is a 100%-owned subsidiary of Universal-Investment-Gesellschaft mbH, Frankfurt am Main. In Luxembourg, currently the second largest investment fund centre in the world, the favourable market conditions are exploited in order to offer German and international institutional investors, as well as asset managers, the individual fund and corporate solutions they need to structure their capital investments. This also includes the international pooling of financial fixed assets.

Since the 2009 founding of the German branch of Universal-Investment-Luxembourg S.A. in Frankfurt am Main, third-party asset management services for rule-based funds are concentrated in this office. The branch took over key Portfolio Management tasks from Universal-Investment-Gesellschaft mbH on 1 October 2018. During this financial year the company has extended its license in portfolio management.

2. Analysis of business performance

a) General conditions/Market situation

As of June 2022, the total volume of Luxembourg's investment fund industry amounted to EUR 5.2 billion (June 2021: EUR 5.4 billion) thus almost keeping up to last year's record level despite the current market turbulences. Luxembourg thereby continues to hold its first place in Europe.

Luxembourg also remains the most popular fund location in Europe ahead of Ireland with regards to cross-border distributed investment fund launches. As of end 2021 57% of the worldwide approvals for cross-border distributed funds were Luxembourg funds (all the figures mentioned are from the overview of the Luxembourg fund industry of the association of the Luxembourg fund industry, alfi). The funds' investors come from the USA, Great Britain, Switzerland and Germany (overall more than half the assets under management).

Luxembourg's regulated Specialised Investment Fund (SIF) has continuously achieved a high market share since its launch in 2007, though the actual number of SIFs as of 31/03/2022 fell to 1,359 (March 2021: 1,411). In parallel, an increased trend towards the launch of unregulated RAIFs (2,019 compared to 1,509 in June 2021) is discernible. Luxembourg continues to develop into a first-class domicile for investments, not only in terms of administrating funds with investments in securities and derivative instruments, but also in terms of alternative investments. The development for real-estate investment funds seems to have evened out at the moment. Real Estate funds remain an interesting asset class with the number of finds rising slightly to 326 as of August 2022 (compared to 322 in June 2021).

The current political situation is also affecting the Luxembourg location. Due to the high market movements in recent months, the total fund volume has been reduced. Currently, it is not predictable how the political world situation will develop in the short and medium term. Market reactions are also not clear at present, although a general concern about an overall reduction in economic output is becoming increasingly apparent. So far, this has been particularly evident in liquid markets. In addition, real estate transactions are also affected.

The financial year 2021/22 was strongly affected by the Covid-19 pandemic, home office and lockdown requirements. In each case, the governmental and regulatory requirements were implemented well and, through the cooperation and dedication of the employees, continued without any significant impact on business operations. Since July 1, 2022, most employees have returned to work locally. The return has worked without any problems.

For the Luxembourg location, we still see high demand for alternative assets despite the unstable global political situation and the volatility on the markets. The constant demand for the newer legal forms of the regulated SCS and SCSp which have now already been established, will continue to exist. These products mainly offer investment opportunities for institutional investors with a high degree of flexibility in private equity, private debt and real estate. In this market segment, we expect demand to continue to increase in the coming fiscal year as a result of the expansion of our sales activities into new markets. The vehicle "RAIF" (Reserved Alternative Investment Fund) has successfully established as product and offer further opportunities for customer-oriented structures as it combines the proven advantages of the SIF with a comfortable Time to Market. With us as an established Alternative Investment Manager (AIF) our clients can react to the changes on the capital markets, especially in these turbulent times.

b) Company development

The financial year 2021/2022 was positive for Universal-Investment-Luxembourg S.A. As in previous years, it was characterized by strong growth. The volume under management by the Company grew from EUR 94.1 billion to EUR 110.9 billion. Manco-only mandates were offered and acquired in 2021/2022, however the largest acquired mandate will be implemented beginning of 2022. The Manco-only mandates acquired in 2021/22 were successfully implemented at the beginning of 2022.

The demand for SIF and RAIF vehicles and alternative investments is especially high. The number of investment funds under management increased from 255 to 296. The number of employees in Luxembourg increased from 94 to 113. The Frankfurt branch employs 42,3 FTE (September 2022). Aside from UCITS and other investment funds with traditional financial instruments, wind-power, solar power, real estate, infrastructure and private equity investment funds, among others, are managed as either SIFs or RAIFs. In addition, there are investment funds whose investment goal is to finance these asset classes (loans, debt structures). Furthermore, institutional investors have the option to invest in structured securities through Universal Securitisation Solutions S.A.

In the portfolio management product area at the Frankfurt am Main branch, the volume in rule-based investment concepts was again noticeably increased during the reporting period.

Institutional investors focused on strategies for systematically managing equity and bond risks in the form of index-hedged overlays and overlays for controlling foreign currency risks. In addition, the “Transition Management” service was in demand to a greater extent and was able to contribute to the business success accordingly. It should be particularly noted that in fiscal year 2021/22, the DPM license was applied for and approved by the CSSF

Alternative assets continue to contribute in an increasing manner to the Company’s total volume under management. As of August 2022, a total of EUR 81.4 billion (prior year: EUR 67.1 billion) had already been invested. As of June 2022, the allocation per asset class was as follows: Private Equity 51%, Private Debt 14%, Infrastructure 20% and Hedge Funds 15%. Existing commitments, which have already been given, will allow for a sustainable increase in volume.

The real estate business segment, which has existed for the last nine years, also developed very constantly in 2021/22. By the end of September 2022, EUR 15.6 billion (prior year: EUR 11.2 billion) was under management in Luxembourg. Real estate is a permanent component of institutional investors’ portfolios. Universal-Investment has issued a total of 27 real estate funds in Luxembourg. In addition to working with institutional investors, Universal-Investment also collaborates with internationally active asset managers in this business segment who wish to realise their investment strategy on a neutral platform.

In the area of liquid asset classes (securities), portfolio management services for rules-based and value-saving investment concepts are increasingly offered and placed via the branch. These services are further valuable additional services in addition to the general fund administration.

c) Earnings position

The earnings situation in the past financial year developed very positively. The Net turnover has increased by 12% from EUR 148 million to EUR 166 million.

Earnings before taxes increased from EUR 37.3 million to EUR 51.2 million. The company's net profit for the year increased year-on-year from EUR 26.8 million to EUR 36.7 million. Business at the branch in Germany improved as a result of lower administrative expenses and increased commission income. It contributed net income of EUR 9.0 million (previous year: EUR 5.5 million) to the overall result.

The following table presents an overview of the Company's financial performance indicators:

	2021/2022 kEUR	2020/2021 kEUR
1. Interest result	-289	-174
2. Net turnover	165.345	148.178

4. Other external expenses	-87.298	-82.803
5. Staff costs	-17.094	-15.671
6. Earnings before taxes	51.225	37.275
7. Tax on profit or loss	-14.575	-10.520
8. Profit	36.650	26.755

Balance-sheet total assets increased from EUR 98.8 million to EUR 107.3 million. Recorded net equity as of 30 September 2022 amounted to EUR 61.7 million (prior year: EUR 50.0 million).

3. Risk report

Risks relating to the business activities of Universal-Investment-Luxembourg S.A. largely arise from possible fluctuations in volume-dependent management-fee income, which may result from the negative development of capital markets and cash outflows, as well as from the general competitive situation, amongst other reasons.

Moreover, in terms of business operations, risks may arise from incorrect transaction processing. For funds for which the portfolio management is performed by Universal-Investment-Luxembourg S.A. or its branches risks may also arise due to breaches of legal and contractual investment fund limits and the compensation payments resulting therefrom. To a lesser extent, there are also risks from shareholdings and the investment of own funds.

The risk strategy and the corporate strategy of Universal-Investment-Luxembourg S.A. are aligned with each other in such a way that decisions can be taken based on an appropriate awareness of risk, in order to achieve business goals despite an overall challenging market environment.

4. Outlook

Universal-Investment has a well-defined growth strategy for the next financial year. The integration of European Fund Administration S.A. into the Universal Group has created new opportunities to open new markets, especially in the Alternatives product area, but also in UCITS. Despite the volatile markets, there is still a growing demand for AIFM and administration services. Special focus is the expansion of distribution services, strengthening the product range and to continue with initiated automation and digitization of processes.

This includes also continuous examining of possibilities to implement self-learning artificial intelligence (robotic applications). There is also a focus on improving the efficiency of business processes. Looking on the growing operating business this is also an important investment. Due to the investment associated, there may also be an effect on the result in the coming fiscal year.

The general framework for the set-up of funds in Luxembourg remains favorable comparing with other European countries. We expect that Luxembourg can maintain its position as second largest fund center worldwide. Contributing to this is the high number of funds which have been set-up for cross-boarder distribution. The positive environment will be enhanced by the increasing recognizable trend that Anglo-Saxon fund managers will transfer the registered office of its funds to continental Europe and in particular to Luxembourg.

Major significance for the growth of Universal-Investment in Luxembourg lies on alternative assets. There is a strong demand for funds set up as RAIF in legal form of an SCS or SCSp. Investors as well as asset manager appreciate the high flexibility and the relatively short period for the set up.

The next financial year will be characterized by global political uncertainty and the associated instability of the markets. In addition, Covid-19 pandemic is not yet completely over. The effect on the business has so far been limited. However, it cannot be ruled out that the announced inflationary trends will affect the business performance. In business organization increased office space requirement per employee could lead to higher costs. It is planned that further business space will be rented at the Potaschberg location. The additional rental agreement is scheduled to begin in August 2023. So far, despite working from home and the lockdown the Company has hardly had any negative impact, but has continued to function effectively.

Overall, given the broad range of services and expertise of Universal-Investment-Luxembourg S.A., particularly in alternative investments, the Company is very well positioned to successfully cope – under the conditions described – with the difficult challenges during the next financial year, and to generate a further increase in income and profit.

REPORT OF THE REVISEUR D'ENTREPRISES AGREE

Report on the audit of the annual accounts

Opinion

We have audited the annual accounts of Universal-Investment-Luxembourg S.A. (the "Company"), which comprise the balance sheet as at 30 September 2022, and the profit and loss account for the year then ended, and notes to the annual accounts, including a summary of significant accounting policies.

In our opinion, the accompanying annual accounts give a true and fair view of the financial position of the Company as at 30 September 2022, and of the results of its operations for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the annual accounts.

Basis for Opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession ("Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the « Responsibilities of "réviseur d'entreprises agréé" for the audit of the annual accounts » section of our report. We are also independent of the Company in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the annual accounts, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Management is responsible for the other information. The other information comprises the information stated in the annual report including the management report but does not include the annual accounts and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the annual accounts does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the annual accounts, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the annual accounts or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Management and Those Charged with Governance¹ for the annual accounts

The Board of Management is responsible for the preparation and fair presentation of these annual accounts in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the annual accounts, and for such internal control as the Board of Management determines is necessary to enable the preparation of annual accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts, the Board of Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Responsibilities of the réviseur d'entreprises agréé for the audit of the annual accounts

The objectives of our audit are to obtain reasonable assurance about whether the annual accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual accounts.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual accounts, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Management.

- Conclude on the appropriateness of Board of Management' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the annual accounts or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the annual accounts, including the disclosures, and whether the annual accounts represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on other legal and regulatory requirements

The management report is consistent with the annual accounts and has been prepared in accordance with the applicable legal requirements.

Luxembourg, 20 October 2022

Cabinet de révision agréé

S. Kraiker

Notes to the annual accounts as of 30 September 2022

1. General

Universal-Investment-Luxembourg S.A. – hereinafter referred to as the “Company” – was founded on 17 March 2000 by way of notarial deed, for an indefinite period, under the legal form of a Société Anonyme with its registered office in Luxembourg. It was entered in the commercial register on 6 April 2000 under No. B 75014.

The Company’s fully paid share capital as of 30 September 2022 amounts to EUR 1,156,000.00, divided into 9,248 shares with a nominal value of EUR 125.00 each. The shares are held by Universal-Investment-Gesellschaft mbH, Frankfurt am Main.

The registered office of the Company is established in Grevenmacher with the business address 15, rue de Flaxweiler, L-6776 Grevenmacher. The Company’s financial year starts on 1 October and ends on 30 September of each year.

The Company has received supervisory authorisation as a management company within the meaning of Chapter 15, Article 101 of the Law of 17 December 2010 relating to undertakings for collective investment as amended (“Law of 17 December 2010”) and as an alternative investment fund manager pursuant to Chapter 2 of the Luxembourg law of 12 July 2013 on alternative investment fund managers as amended (“Law of 12 July 2013”).

The purpose of the Company, according to Article 3 of the articles of association, is the creation and/or management of Luxembourg-based and/or foreign undertakings for collective investment in transferable securities (UCITS), to be subject to Directive 2009/65/EU as amended, and/or undertakings for collective investment (UCIs), as defined by the Law of 17 December 2010, and of Specialised Investment Funds (SIFs), as defined by the law dated 13 February 2007 (“Law of 13 February 2007”), in their current versions, as well as the performance of all activities relating to the creation and management of these UCITS and/or UCIs.

In addition, the purpose of the Company is the launch and/or management of approved Luxembourg and/or foreign Alternative Investment Funds (AIFs) under Directive 2011/61/EU of the European Parliament and the Council of 8 June 2011 relating to managers of Alternative Investment Funds (“AIFM Directive”). The management of AIFs comprises, at a minimum, the investment management functions for AIFs listed in Appendix I No. (1) lit. a) and/or b) of the AIFM Directive, and in its broadest sense, the other tasks laid down in Appendix I No. (2) of the AIFM Directive.

In addition, the Company may assume the administration of Companies according to the Law of 15 June 2004 relating to the investment company in risk capital and of special purpose entities (*Sociétés de participation financière*) which qualify as 100%-owned shareholdings of the managed UCIs and AIFs according to paragraphs 1 and 2.

The Company may enter into any other transactions and take any measures that are useful or promote its interests or otherwise serve its business purpose, insofar as they comply with Chapter 15 of the Law of 17 December 2010, the Law of 13 February 2007, and/or the Law of 12 July 2013.

In addition, the Company may perform administrative activities for securitisation companies within the meaning of the law of 22 March 2004 on securitisation, as amended.

Notes to the annual accounts as of 30 September 2022

On 5 December 2019, an extraordinary general meeting of shareholders resolved by amendment of the articles of association to subject the management and supervision of the company to the regulations of a dualistically managed company with the Supervisory Board and the Board of Management, pursuant to Articles 442-1 up to and including 442-19 of the amended law of 10 August 1915 on commercial companies.

On 15 June 2009, the Company established a branch in Frankfurt: Universal-Investment-Luxembourg S.A., Frankfurt am Main Branch.

The business premises are located at Theodor-Heuss-Allee 70, D-60486 Frankfurt am Main. The entry into the commercial register took place on 13 July 2009 at the Local Court of Frankfurt am Main.

After having made the corresponding adjustments to receive authorisation as an AIFM, the branch offers the following range or services:

- a) collective asset management for the purposes of portfolio management and risk management (as of now also) for open-ended and close-ended AIFs;
- b) distribution (as of now also) for open-ended and close-ended AIFs;
- c) administrative activities such as servicing and handling customer inquiries, controlling/accounting (as of now also) for open-ended and close-ended AIFs.

As of 30 September 2022, the Company managed 296 funds or sub-funds with a total volume of EUR 110.9 billion. Furthermore, securitisation companies, SOPARFIs, and general partner entities are domiciled at the Company.

The Company is included in the consolidated accounts of Universal-Beteiligungs-und Servicegesellschaft mbH, Frankfurt am Main, which is the highest consolidation level to which the Company belongs as a subsidiary. The registered office of this Company is located at Theodor-Heuss-Allee 70, 60486 Frankfurt am Main (Germany); the consolidated accounts are available there and, in Germany, they are published in the electronic Federal Gazette.

The Company did not purchase its own shares during the period under review.

Notes to the annual accounts as of 30 September 2022

2. Accounting and valuation principles

2.1 Basis of preparation

The balance sheet currency is the Euro (EUR).

The annual accounts were prepared in accordance with the applicable legal and regulatory requirements in Luxembourg and its generally accepted accounting principles, under the historical cost convention. The fair value option for financial instruments and/or specific asset categories has not been applied.

The annual accounts were prepared on the going-concern basis.

The company's accounting and valuation methods were established and implemented by the Board of Management in accordance with the provisions of the amended Law of 19 December 2002 relating to commercial companies.

Significant estimates must be made when preparing the annual accounts. The Board of Management must apply the accounting and valuation methods based on reasonable commercial assessment. Changes and assumptions may significantly influence the annual accounts of the financial year in which a change took place. According to the Board of Management, the underlying assumptions are reasonable, thus, the annual accounts convey a true and fair view of the asset, financial and earnings position.

The Company made estimates and assumptions that affect the reported amounts of assets and liabilities in the next financial year. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events considered probable under the given circumstances.

2.2 Significant accounting policies

The main valuation rules applied by the Company are the following:

The assets are shown as fixed assets or current assets depending upon the purpose for which these are intended, whereas fixed assets are intended for use on a continuing basis for the purpose of the Company's activity.

2.2.1 Intangible fixed assets

The intangible assets are valued at acquisition cost including incidental expenses thereto or at production cost, less cumulated scheduled depreciation and value adjustments. These value adjustments are not continued if the reasons for which the value adjustments were made have ceased to apply.

Intangible assets are depreciated over their average useful economic lives of up to five years.

Notes to the annual accounts as of 30 September 2022

2.2.2 Tangible fixed assets

The tangible assets are valued at acquisition cost including incidental expenses thereto or at production cost. Tangible assets are depreciated over their estimated useful lives.

The depreciation rates and methods applied are as follows:

- Other fixtures and fittings, tools and Equipment 7.692 % (useful life 13 years);
- Technical systems 33.334 % (useful life 3 years);
- Buildings 20.000 % (useful life 5 years).

Where the Company considers that a tangible asset has suffered a durable depreciation in value, an additional write-down is recorded to reflect this loss. These value adjustments are not continued if the reasons for which the value adjustments were made have ceased to apply.

2.2.3 Financial fixed assets

Shares in affiliated undertakings and securities held as fixed assets are valued at acquisition cost including incidental expenses thereto. In the case of durable depreciation in value according to the Board of Management, value adjustments are made in respect of financial assets, so that they are valued at the lower figure to be attributed to them at the balance sheet date. These value adjustments are not continued if the reasons for which the value adjustments were made have ceased to apply.

2.2.4 Debtors

The receivables are valued at their nominal value. They are subject to value adjustments where their recovery is compromised. These value adjustments are not continued if the reasons for which the value adjustments were made have ceased to apply.

2.2.5 Accrued and deferred items

This asset item includes expenditures incurred before the balance sheet date but relating to a certain period after this date.

2.2.6 Prepayments and accrued income

This assets item includes expenditures incurred during the financial year but related to a subsequent financial year.

2.2.7 Foreign currency translation

The Company maintains its books and records in EUR.

Notes to the annual accounts as of 30 September 2022

Transactions expressed in currencies other than EUR are translated into EUR at the exchange rate effective at the time of the transaction. Fixed assets expressed in currencies other than EUR are translated into EUR at the exchange rate effective at the time of the transaction. At the balance sheet date, these assets remain translated at historical exchange rates.

Cash at bank is translated at the exchange rate effective at the balance sheet date. Exchange losses and gains are recorded in the profit and loss account at the year-end.

Other assets and liabilities are translated separately respectively at the lower or at the higher of the value converted at the historical exchange rate. Solely, the unrealized exchange losses are recorded in the profit and loss account. The exchange gains are recorded in the profit and loss account at the moment of their realization.

Where there is an economic link between an asset and liability, these are valued in total according to the method described above and the net unrealized losses are recorded in the profit and loss account whereas the net unrealized exchange gains are not recognized.

2.2.8 Provisions

Provisions are intended to cover losses or debts, the nature of which is clearly defined and which, at the date of the balance sheet, are either likely to be incurred or certain to be incurred, but uncertain as to their amount or the date on which they will arise.

Provisions may also be created in order to cover charges which have their origin in the financial year under review or in a previous financial year, the nature of which is clearly defined and which at the balance sheet date are either likely to be incurred, or certain to be incurred, but uncertain as to their amount or as to the date on which they will arise.

2.2.9 Creditors

The liabilities are recorded at their reimbursement value. Where the amount repayable on account is greater than the amount received, the difference is recorded in the profit and loss account when the debt is issued.

2.2.10 Deferred income

This liability item includes income received during the financial year but related to a subsequent financial year.

2.2.11 Net turnover

The net turnover comprises amounts from the Company's ordinary activities, after deduction of sales rebates and valued added tax and other taxes directly linked to the turnover.

The net turnover from ordinary business activity relates to the creation and management of the collective undertakings. Turnover is recognized on an accrual basis.

Notes to the annual accounts as of 30 September 2022

3 Explanations on individual items in the annual accounts

3.1 Intangible assets

The intangible assets of EUR 8,005.50 (2021: EUR 37,885.47) consist of EDP software. The movements for the year are as follows:

	EDP Software
Gross book value opening balance 01/10/2021	116,382.18
Additions	2,825.55
Disposals	0.00
Gross book value closing balance 30/09/2022	119,207.73
Accumulated value adj. opening balance 01/10/2021	-78,496.71
Allocations for the year	-32,705.52
Reversals/transfers for the year	0.00
Accumulated value adj. closing balance 30/09/2022	-111,202.23
Net book value opening balance 01/10/2021	37,885.47
Net book value closing balance 30/09/2022	8,005.50

Notes to the annual accounts as of 30 September 2022

3.2 Tangible assets

The tangible assets EUR 450,473.11 (2021: EUR 392,693.76) include necessary purchases of EDP hardware, office equipment and furniture. The movements for the year are as follows:

	Land and Building	Other fixtures and fittings	Plant and Machinery	Total
